### **2.4. Owner's Tax Exemption Status**

All bidders acknowledge and agree that its lump sum price to the County of Boone, excludes Missouri sales and use taxes and that the proposed contract sum does not include any Missouri sales taxes for which the County of Boone receives an exemption.

To enable the County of Boone to take advantage of its tax-exempt status, purchase of materials and equipment by the Contractor for its work on this project shall be made under and pursuant to the tax exempt purchase procedure authorized by Missouri Statutes. This procedure includes, among other requirements, the issuance of project exempt certificates to all Contractors who use those certificates to effect tax exempt purchases.

- 2.5. **Insurance Requirements:** The Contractor shall not commence work under this contract until they have obtained all insurance required under this paragraph and the Certificate of Insurance has been approved by the County, nor shall the Contractor allow any subcontractor to commence work on their subcontract until all similar insurance required of subcontractor has been so obtained and approved. All policies shall be in amounts, form and companies satisfactory to the

County which must carry an A-6 or better rating as listed in the A.M. Best or equivalent rating guide. Insurance limits indicated below may be lowered at the discretion of the County.

- 2.5.1. **Commercial General Liability Insurance** - The Contractor shall take out and maintain during the life of this contract, such commercial general liability insurance as shall protect it and any subcontractor performing work covered by this contract, from claims for damages for personal & advertising injury, bodily injury including accidental death, as well as from claims for property damages, which may arise from operations under this contract, whether such operations be by themselves or for any subcontractor or by anyone directly or indirectly employed by them. The amounts of insurance shall be not less than \$2,000,000.00 combined single limit for any one occurrence covering both bodily injury and property damage, including accidental death. If the Contract involves any underground/digging operations, the general liability certificate shall include X, C, and U (Explosion, Collapse, and Underground) coverage. If providing Commercial General Liability Insurance, then the Proof of Coverage of Insurance shall also be included.

Contractor may satisfy the minimum liability limits required for Commercial General Liability or Business Auto Liability under an Umbrella or Excess Liability policy. There is no minimum per occurrence limit of liability under the umbrella or Excess Liability; however, the Annual Aggregate limit shall not be less than the highest "Each Occurrence" limit for either Commercial General Liability or Business Auto Liability. Contractor agrees to include the County as an Additional Insured on the umbrella or Excess Liability, unless the Certificate of Insurance state the Umbrella or Excess Liability provides coverage on a "Follow-Form" basis.

- 2.5.2. **Business Automobile Liability** – The Contractor shall maintain during the life of this contract, automobile liability insurance in the amount of not less than \$2,000,000.00 combined single limit for any one occurrence, covering both bodily injury, including accidental death, and property damage, to protect themselves from any and all claims arising from the use of the Contractor's own automobiles, teams and trucks; hired automobiles, teams and trucks; non-owned and both on and off the site of work.

In addition, such insurance shall be on an occurrence basis and shall remain in effect until such time as the County has made final acceptance of the services provided.

- 2.5.5. **INDEMNITY AGREEMENT:** To the fullest extent permitted by law, Contractor shall indemnify, hold harmless and defend the County, its directors, officers, agents, and employees

This provision does not, however, require contractor to indemnify, hold harmless, or defend the County of Boone from its own negligence.

Failure to maintain the required insurance in force may be cause for contract termination. In the event the Agency/Service fails to maintain and keep in force the required insurance or to obtain coverage from its subcontractors, the County shall have the right to cancel and terminate the contract without notice.

### **3. SCOPE OF SERVICES**

#### **3.1. Overview:**

The 3 West courtroom of the Boone County Courthouse for several years has utilized several technology components including teleconferencing, video conferencing, and video evidence presentation. Additionally, hearing assist devices are available for anyone, particularly jurors, who have trouble hearing. The technology for this courtroom was installed in 2008. The various components for audio, video conferencing, teleconferencing, and video evidence control are all managed by the judge via a small control panel at the bench.

The microphones in this courtroom supply the audio input for the courtroom sound system to provide output for overhead speakers, courtroom hearing assistance, video conferencing, teleconferencing, and the computer system which captures and preserves the audio portion of courtroom proceedings. The microphones utilized include both wired and wireless microphones.

Wired microphones are used chiefly by the judge and the witness. Two additional wired microphones are available in the jury box and are turned on only during jury questioning. One additional wired microphone is available for the courtroom clerk and is rarely used.

Wireless microphones are used primarily by the attorneys. Attorney microphones are pinned to a lapel or hang from a necklace. They're used either while seated at the attorney tables or while the attorney walks around the courtroom.

Due to technical requirements of the computer system which captures and preserves the audio portion of certain types courtroom proceedings, some microphones must be on separate channels. The judge, the witness, and the two attorneys are each on separate channels. Accordingly, the present audio input configuration accommodates this requirement.

Over time certain problems have been identified. It is desired to obtain two responses to this Request for Proposal (RFPs) to solve these problems. There are two problems identified and a desired solution for each. The Base Bid is for *Wired Microphones for Two Attorney Tables* and the Optional Bid is for the *Lectern With Combined Document Camera and Audio Capabilities*.

#### **3.2. Scope of Services:**

##### **Boone County Courthouse 3 West Courtroom – Problems and Possible Solutions**

##### **3.2.1. PROBLEM 1 – Wireless Microphones for Attorneys**

Over time the audio quality of the wireless microphones has started to degrade. Replacement wireless microphones, which are expensive, last only a short time before degrading as well. Common problems encountered include short battery life, snapping and popping, and low volume. Additionally, these microphones have the power buttons located in a spot that makes it easy to accidentally turn off or mute them.

This can be a problem especially for courtroom proceedings that involve video conferencing where the defendant is incarcerated and appearing by video. It is not uncommon for the defendant to have trouble hearing one or both of the attorneys.

Attorneys may frequently pass back and forth a single wireless microphone that appears to be working at the time.

### **3.2.2. SOLUTION 1 – Wired Microphones for Two Attorney Tables**

Court staff have discussed the problem and concluded there is no need for attorneys to use wireless microphones and would therefore like to add one wired microphone to each of the two attorney tables.

These two wired microphones could replace the existing wireless microphones if technically required. They would need to each be on separate channels leading into the computer system which captures courtroom audio.

### **3.2.3. SOLUTION 1 – Scope of Work**

Evaluate existing technology and recommend wired microphone solution for two attorney tables. The proposed microphones must have the ability to be muted or powered off and on by the user. They should be table-top gooseneck models which do not require permanent mounting.

Proposed solution must incorporate into the existing courtroom sound recording computer system, the courtroom audio system, the hearing assist system, and the Crestron controller.

Proposal to include all components, wiring, conduit, incidentals, labor, programming, testing and any other items needed for this solution.

### **3.2.4. PROBLEM 2 – Use of Document Camera, and Lack of a Podium with a Wired Microphone**

The courtroom technology includes a portable document camera (“Elmo”) which sits on top of a rolling cart out of the way when not needed. When it is needed the cart must be first rolled into position and the electric plugged into a floor outlet. A cable from the document camera trails across the floor back to a spot on a wall where it is connected to the video evidence presentation component. This cable presents a trip hazard while in use.

Additionally, the courtroom has a small lectern that can be used, if desired, by attorneys. This podium does not include any technology and is essentially a wooden stand with a shelf. This podium is used typically when addressing the jury during opening and closing arguments, and possibly during witness examination.

When using this podium attorneys make use of wireless microphones – the same microphones described earlier.

### **3.2.5. SOLUTION 2 – Lectern with Combined Document Camera and Audio Capabilities**

The dual problems of a trip hazard while using the document camera and inadequate audio from use of a wireless microphone could be resolved by building a lectern that incorporates both features into a single unit, similarly as is done in the Ceremonial Courtroom.

A mobile lectern should be built that will house a document camera stored out of the way when not in use, and be opened up when needed. Additionally this lectern will include a wired microphone.

This new unit will require reconfiguration of an existing floor plate that contains electrical and network jacks, to include connection points for VGA and XLR cabling for the new microphone.

### 3.2.6. SOLUTION 2 – Scope of Work

Evaluate existing technology, propose lectern solution that includes a wired microphone and pull-out drawer for existing “Elmo” document camera. Solution to include modification of existing floor panel containing only electrical outlets to one that includes connections for power, microphone and VGA for document camera.

Proposed solution must incorporate into the courtroom audio and evidence presentation system.

### 3.2.7. APPENDIX A – Local Milling / Woodworking Vendor

NOTE: Boone County has used this vendor in the past to custom-build cabinets and lectern for courtroom and jail use. This information is provided as a courtesy. Any proposed lectern may be manufactured or purchased from any source deemed appropriate by the Offeror.

To the fullest extent permitted by law, Contractor shall indemnify, hold harmless and defend the County, its directors, officers, agents, and employees from and against all claims, damages, losses and expenses (including but not limited to attorney's fees) arising by reason of any act or failure to act, negligent or otherwise, of Contractor, of any subcontractor (meaning anyone, including but not limited to consultants having a contract with contractor or a subcontract for part of the services), of anyone directly or indirectly employed by contractor or by any subcontractor, or of anyone for whose acts the contractor or its subcontractor may be liable, in connection with any claims arising under the Overhead Power Line Safety Act. Contractor expressly waives any action for Contribution against the County on behalf of the Contractor, any subcontractor (meaning anyone, including but not limited to consultants having a contract with contractor or a subcontract for part of the services), anyone directly or indirectly employed by contractor or by any subcontractor, or of anyone for whose acts the contractor or its subcontractor may be liable, and agrees to provide a copy of this waiver to any party affected by this provision.

As such, smoking and consumption of alcoholic beverages is PROHIBITED on this project. 613 E. Ash Street, Room 110  
Columbia, MO 65201

b. The proposals must be delivered no later than **1:30 p.m. on August 25, 2015**. Proposals will not be accepted after this date and time.

5.1.1.2. To facilitate the evaluation process, Offerors are encouraged to organize their proposal as described in section 5.1.4.

a. Each distinctive section should be titled with paragraph number and all material related to that category should be included therein.

b. The signed response page from the original RFP and all signed amendments should be placed at the beginning of the proposal response.

c. The Proposal must, at a minimum, address all mandatory and desired services, equipment, materials, etc. Responses will fully describe how the service will be performed and what hardware/software (if any) is required at the County to access the service.

5.1.1.3. Offerors are cautioned that it is the Offeror's sole responsibility to submit information related to the evaluation categories, and that the County is under no obligation to solicit such information if it is not included with the proposal. Offerors' failure to submit such information may cause an adverse impact on the evaluation of the proposal. Any Offeror whose responses deviate from the outlined specifications may automatically be disqualified.

5.1.1.4. Offeror's Contacts: Offerors and their agents (including subcontractors, employees, consultants, or anyone else acting on their behalf) must direct all of their questions or comments regarding the RFP, the evaluation, etc. to the buyer of record indicated on the first page of this RFP. Offerors and their agents may not contact any County employee

other than the buyer of record regarding any of these matters during the solicitation and evaluation process. Inappropriate contacts are grounds for suspension and/or exclusion from specific procurements. Offerors and their agents who have questions regarding this matter should contact the buyer of record.

5.1.2. **Competitive Negotiation of Proposals:** Offerors are advised that under the provisions of this Request for Proposal, the County reserves the right to conduct negotiations of the proposals received or to award a contract without negotiations. If such negotiations are conducted, the following conditions shall apply:

- 5.1.2.1. Negotiations may be conducted in person, in writing, or by telephone.
- 5.1.2.2. Negotiations will only be conducted with potentially acceptable proposals. The County reserves the right to limit negotiations to those proposals, which received the highest rankings during the initial evaluation phase.
- 5.1.2.3. Terms, conditions, prices, methodology, or other features of the Offeror's proposal may be subject to negotiation and subsequent revision. As part of the negotiations, the Offeror may be required to submit supporting financial, pricing and other data in order to allow a detailed evaluation of the feasibility, reasonableness, and acceptability of the proposal.
- 5.1.2.4. The mandatory requirements of the Request for Proposal shall not be negotiable and shall remain unchanged unless the County determines that a change in such requirements is in the best interest of the entities.

**5.1.3. Evaluation and Award Process:**

5.1.3.1. Boone County has selected an evaluation team to review responses and to make a formal recommendation for award to the County Commission. After determining a responsible Offeror and a responsive proposal through the determination that the proposal satisfies the mandatory requirements stated in the Request for Proposal, the evaluation team will use both objective analysis and subjective judgment in conducting a comparative assessment of the proposal in accordance with the evaluation criteria stated below:

- a. Method of Performance
- b. Experience/Expertise
- c. Cost

5.1.3.2. After an initial evaluation process, a question and answer interview may be conducted with the Offeror, if deemed necessary by the County. In addition, the County may request to visit sites where proposed equipment is in operation. Offeror may be asked to make an oral presentation of their proposal to the evaluation team at a designated Boone County location. Attendance cost shall be at the Offeror's expense. All arrangements and scheduling will be coordinated by the County.

**5.1.4. Evaluation:**

5.1.4.1. Experience and reliability of the Offeror's organization are considered subjectively in the evaluation process. Therefore, the Offerors advised to submit any information, which documents successful and reliable experience in past performances, especially those performances related to the requirements of this RFP.

- 5.1.4.2. Offerors should provide the following information related to previous and current services/contracts performed by the Offeror's organization (minimum of five references) and any proposed subcontractors which are similar to the requirements of this RFP. At a minimum the Offeror shall include:
- a. Name, address, and telephone number of client/contracting agency and a representative of that client/agency who may be contacted for verification of all information submitted;
  - b. Dates and locations of the service/contract; and
  - c. A brief, written description of the specific equipment installed and prior services performed and requirements thereof.
- 5.1.4.3. Offerors should submit a copy of all licenses, certifications, accreditation, and/or permits, which may be required by state, federal, and/or local law, statute, or regulation in the course of conduct of the Offeror's business. If not submitted with the proposal, the County reserves the right to request and obtain a copy of any license or certification required to perform the defined services prior to contract award.
- 5.1.4.4. Offerors shall provide a list of qualifications of the Offeror and/or the staff of the Offeror's organization who will be involved in the project. List shall include number of certified technicians and levels of experience on the proposed system and state how many miles they are located from Boone County.
- 5.1.4.5. Proposals will be subjectively evaluated based on the Offeror's distinctive plan for performing the requirements of the RFP. Therefore, Offerors should present a written narrative, which demonstrates the method or manner in which the Offeror proposes to satisfy these requirements. The language of the narrative should be straightforward and limited to facts, systems to problems, and plans of action.
- 5.1.4.6. Where the words "shall" or "must" are used, they signify a required minimum function of system capacity that will heavily impact the Offeror's final response rating.
- 5.1.4.7. Where the words "should", "may" or "desired" are used, they signify that the feature or capacity is desirable but not mandatory; therefore, the specifications in question will possess minimal impact on the Offeror's final response rating.
- 5.1.4.8. The method by which the proposed method of performance is written will be left to the discretion of the Offeror. However, Offerors should address each specific paragraph and subparagraph of the Specifications by paragraph and page number as an item for discussion. Immediately below these numbers, write descriptions of how, when, by whom, with what, to what degree, why, where, etc., the requirements will be satisfied.

**5.1.5. Rejection / Withdrawal of Proposals Response:**

Rejection of Proposals The County reserves the right, at its discretion, to reject any or all proposals or parts thereof. The County reserves the right to waive defects or informalities, to negotiate with Offeror's and to accept the proposal deemed to be in the best interest of the County.

Withdrawal of Proposals - Proposals may be withdrawn on written request from the Offeror at the address shown in the solicitation prior to the time of acceptance.

Negligence on the part of the Offeror in preparing the proposal confers no right of withdrawal after the time fixed for the acceptance of the proposals.

**5.1.6. Validity of Proposal Response:**

Offerors agree that proposals will remain firm for a period of ninety (90) calendar days after the date specified for the return of proposals.
